BUCK SERVING WITH ARMY'S RIVER KINGS IN VIETNAM

Specialist 4 John A. Buck of Bethel has the unusual distinction of being a member of the U. S. Army's sole waterborne security operation in the Republic of Vietnam. He is a coxswain with the 458th Transportation Company, Patrol Boat River (PBR), 10th Military Police Brigade in Qui Nhon. The 458th has outposts of operation in Vung Tau, Saigon-Newport, Cogido and Cat Lai.

Everything from shoreline to ship security in the harbor areas to river escorts and underwater salvage operations fall into the unit's realm of responsibility. A coxswain, engineer and military policeman serve as crew for the \$60,000, 32-foot, fiberglass patrol boat.

At PBR School in Vallejo, Calif., Sp4 Buck and the men of the 458th were trained and cross-trained in the operation of the boat and all aspects of their mission. This gives each man the versatility of being able to team with any crew, aboard any boat and have a working knowledge of all jobs to be done.

With their operations in Vietnam a fourth member of the crew is installed. He is known as a Khan Sak, or Vietnamese marine policeman, who also serves as interpreter aboard the PBR.

River and harbor traffic is always heavy, with vessels of every shape, size and description imaginable. With this to contend with, one of the most frequent operations of Buck's unit is the searching of sampans and junks for items stolen from the anchored supply barges and cargo ships in the harbor areas. When suspecting these ships, identification and cargo are checked, floor boards are lifted and all other areas are searched for contraband.

Boston Whalers (12-foot, flat bottom, fiberglass hulls) are also used by the 458th PBR. Buck and the PBR men consider them the "proboscis fingers of the hand." The small skiff can search locations larger boats are unable to reach. A saboteur may hide his explosives or weapons underneath a pier, or choose an extremely shallow waterway to give him access to the river and fort.

Although the PBR draws only six inches of water, sampans draw even less, so the Boston Whaler becomes

ZETA CHAPTER OF DELTA KAPPA GAMMA OFFERS RECRUITMENT GRANT

Applications may be obtained from any member of the Chapter or from Mrs. Winona Y. Palmer, Crockett Ridge Road, Norway, Maine, and must be completed and in the hands of the committee by May 1, 1971. The Delta Kappa Gamma Society is an international organization of women educators. One of the main purposes of the society is to advance the professional interest and position of women in education.

S. A. D. 44 SCHOOLS TO BE ON VACATION NEXT WEEK

All schools in S. A. D. 44 will be enjoying spring recess next week, April 19 through 21. Classes will resume on April 26.

An invaluable tool in patrol operations. If not guarding against Viet Cong activities along the rivers or smugglers, thieves and saboteurs in the harbors, Buck and the men of the 458th PBR often work as rescue teams transporting injured personnel from ship to shore.

Because of their professionalism, skill and high sense of unity as a team, the 458th PBR's maintain the most secure waterways in Vietnam.

Sp4 Buck is the son of Mr. and Mrs. Albert W. Buck of Bethel, and is a graduate of Southern Maine Vocational-Technical Institute in Portland.

COMMENTS FROM THE OFFICE OF THE TOWN MANAGER

Investigation is being made into the possibilities of administering the donated commodities program through the Town Office instead of the Office of Economic Opportunity. At present we have to pay 50 cents per recipient regardless of the amount of food they receive. If we sponsor the program ourselves we pay only the freight on what is dispensed.

The problem we have to solve is where to store the commodities as they arrive. We will have to have heated quarters as well as equipment to refrigerate the butter and cheese during the warm weather. Also these goods must be well protected against losses.

Unless there is a curtailment of the cost of the program it will have to be discontinued in the Fall, which will be at the time it is most needed. There should be ample funds to provide for those who are eligible providing it is given proper supervision and we can find a way to reduce the cost of administration.

The Town Office will be closed Monday, April 19, in observance of Patriots Day.

Robert Moorman

In 1961 Mr. Moorman went to Cambridge, Mass. to begin his college studies. It was there that he was introduced to and started using drugs, back when hippies were called beatniks. It was not long after he started college that Mr. Moorman "dropped out."

During the next six years, Mr. Moorman experimented with marijuana (extensive use), morphine and heroin (eight months addiction), L. S. D., and mescaline (four years off and on), amphetamines (five years off and on), solvents and glues (limited use), rohypal (limited use), barbiturates (limited use), and various assorted pills from time to time.

The end of the road for the drug dependent Robert Moorman came in 1965 when he was arrested in Tampa, Florida for grand larceny and possession of narcotics. For fourteen months, confined behind the fences of the Florida State and County Prison System, Robert Moorman began a most painful and agonizing rehabilitation.

After Mr. Moorman's release from prison, a whole new world opened to him again, one that he had not known for six long years.

For the past two years Mr. Moorman has lectured at high schools, preparatory schools, colleges and universities from coast to coast. As in his previous lectures, Mr. Moorman is expected to bring our community a fresh, sincere and candid approach to the mounting problem of drug abuse.

TELSTAR R. H. S. NEWS UPTON

ACTIVITIES

In observance of the forthcoming National Library Week, the Telstar Library Club is giving away two books, one to a senior high student and one to a junior high student. Interested students may leave their names at the library desk, and a drawing for the books will be made before the close of school this Friday.

The book to be given to a senior high student is a science-fiction novel by Martin Caidin, entitled "The Mendelov Conspiracy." This book deals with a newspaper reporter who is assigned to investigate reports of unidentified flying objects. His probing lead him into some unusual encounters. The book for the lucky junior high student is "King of the Wind: The Story of the Godolphin Arabian" by Marguerite Henry. This story about a magnificent stallion was a former winner of the Newbery Medal.

Adaptive Program Established

Through the efforts of the Physical Education and Health Departments a weight program has been initiated at Telstar. Twenty-eight girls have been shedding pounds through decreasing their food intake, lowering calorie counts, and increasing energy out put.

The girls have special exercises that they do during activity classes, and are weighed weekly. The girls have been grouped with others their size, so there is competition among those of the same height and weight.

Many girls are showing the results of their efforts. Elaine Brooks, a junior, is in the lead with a loss of 14 pounds.

Guidance News

The following seniors have been accepted at college for the coming year:

Morris Leo Butters, MacGillivray College, Jacksonville, Ill.

Walter Tom Gaudin, U. of M. Portland-Gorham.

Heidi Gaudin, Deal Business College, Bangor.

Maryanne Swan, Central Maine General Hospital School of Nursing, Lewiston.

James Thurston, Springfield College, Springfield, Mass.; University of Maine, Presque Isle.

Robert Tull, U. of M., Portland-Gorham.

STUDENT COUNCIL NOTES

As we have turned the corner and begin to move down the final stretch of the school year, one can look back on the year as being one of success. Or at least one can look back on the year of some good changes.

One of the most important changes that took place, but it will take time for it to really become what it should be, is the idea that the students are beginning to take much more interest in the school, they are beginning to think of the school as being THEIR school.

Telstar has come a long way from what it was two years ago, but the school itself still has a long way to go before it reaches the goals for what it was built. This will take time. Time that some people are not willing to give it. The progress that has taken place is heading the school in the right direction—Patsy Wright.

Colon and Elsie Fuller extend a warm thank you to everyone reading cards to Colon. The weather was very nasty that day, especially for anyone with arthritis, but Colon said for a time he had no aches or pains. This card shower was certainly appreciated! Next week, let's do the same for Millard Fraser who has been ill this winter, and not fully recovered. He lives in Upton, but his address is Henry, 04251.

Howard and Elsie Douglass have returned from Florida to their home here. Nelson Douglass spent his vacation from Unity College with his parents.

There was a good attendance at the Easter Service and breakfast. The service had to be held at the Ladies Aid building as the gas tanks were empty and there was no heat at the church.

A strange call has been heard from the ridge extending from Lane Road to Back Street. This set a dog barking, which woke some peo-

ple and at daylight Nelson Douglass went out on his snowmobile to try to find something that would explain the mystery, but was not successful.

Mr. and Mrs. Bob Monroe and Viola Thomas have returned to their home here.

Mr. and Mrs. Bill Harris, family and guests, of Leroy, N. Y., were at their home here over the week end. Mrs. Harris stayed for the week as it is her vacation from her teaching position.

Rev. Louis DeBoer will conduct services at Upton Union Church, Sunday, April 18, at 10 a. m.

Roland and Arline Bernier went to Farmington Saturday evening to attend a meeting and visit their children.

Warm weather has been settling the snow rapidly.

It has been reported to me that some people have the wrong impression from the suggestion to send Horace Goodrum cards and notes. The few pennies are for the price of card and stamps, and is not a request for donations.

GREENWOOD CITY

— Mrs. Collette Morgan, Corres. —
Tuesday this week was a morning with spring air and a crust. The sun had not yet hit our location even though it was up across the valley. There wasn't a stir of a breeze among the trees.

I knew unless I went out early the crust would be gone. So at seven-thirty I journeyed up the steeply pitching wilderness road to the section, above the spring. Here in a grove stand the eye catching white birches. The grace of this tree against a snowy hillside, slim, clean, and sleek, is a thing of beauty.

Large boulders here and there had lost their winter crowns. Now there could be seen grooves and scratches or ferns and mosses decorating them.

From here I noticed a pine, so old and rough, standing on the edge of a rock clinging to keep its balance. I was reminded of Harriet Monroe's poem:

"What has bent you,
Warped and twisted you,
Torn and crippled you?
What has embittered you,
O lonely tree?"

You search the rocks for a footing, dragging scrawny roots;
You bare your thin breast to the storms,
and fling out wild arms behind you;
You throw back your wild-like head, with wisps of hair straining 'neath the wind."

Going on I met the sun at the top of the hill which now makes our day longer.

Lichens were on the trunks of some of the trees, crows called to greet the morning, and the snow sparkled. I looked up to the buds of a small tree. They were beginning to swell.

A flock of gold finches flew in to nestle among the branches, busily talking among themselves. As I moved, off they flew only to light again near by.

Now I started down through the overgreens and found that in places the crust was weakening so I started in the direction of home.

It wasn't a long hike but a delightful one in the freshness of early day and beauty to the eye that beholds it.

As I approached the yard the

BETHEL INN RECEIVES 4-STAR MOBIL GUIDE RATING FOR FIFTH STRAIGHT YEAR

The Bethel Inn has been awarded a Four Star Rating in the 1971 Edition of the Mobil Guide, the nation's best known travel guide book. General Manager, Blaine D. Moores was informed of this special accolade by the Editors of the Guide. It is their opinion that the Bethel Inn is "outstanding—worth a special trip". In all America, only twenty-one resorts have been awarded the four star rating.

Over 24,000 restaurants, hotels, motels and resorts are listed and rated on a one to five-star basis in the seven volume Travel Guide which has been compared to the famed Guide-Michelin by travel experts. The books will be available at bookstores and Mobil stations in April.

To win a listing in the Mobil Guide, an establishment must be personally inspected by an impartial, trained inspector who reports his findings to an editorial board. Mobil has given complete independence to this group in deciding on listings and ratings.

Each of the seven regional editions gives valuable information on local history, sightseeing, amusements, sports and recreation facilities. They also include regional road atlases and detailed maps of major cities, special auto-tour sightseeing routes, and advice to travelers.

This marks the fifth consecutive year that The Bethel Inn has received the Four-Star Award.

HIGH BLOOD PRESSURE A COMPLEX PROBLEM

High pressure can mean anything from a local weather report to a persistent salesman. But when you insert the word "blood" in between, it takes on its most important meaning — a sign of a disorder of the body's cardiovascular system. The effects of high blood pressure and certain of its causes produce injury to the heart, the blood vessels and the organs they supply.

There are a great many prescription medicines that a physician can prescribe to help relieve this condition. Very little is known as to what is the actual cause in many cases. If you have an elevated blood pressure follow your doctor's advice very carefully.

Due to the increased number of prescriptions and in order to keep up good service, it would be to our mutual advantage, if you would please phone in re-fill prescriptions. — Thank you.
